

OC CARDIOVASCULAR ADMINISTRATOR WINS NATIONAL AWARD

**St. Joseph Hospital's Renee Mazeroll, RN, MSN Honored with GE Healthcare
Award of Excellence for Outstanding Contributions to Cardiovascular Care**

ORANGE, Calif., (January 00, 2007) – Renee L. Mazeroll, RN, MSN, was recently awarded the GE Healthcare Award of Excellence by the American College of Cardiovascular Administrators (ACCA), a specialty group of the American Academy of Medical Administrators (AAMA). Mazeroll, Executive Director of Cardiac and Vascular Services at St. Joseph Hospital of Orange, will be presented with the Award on March 22 at the ACCA 18th Annual Cardiovascular Administrators' Leadership Conference on in New Orleans, LA.

“Ms. Mazeroll has demonstrated in her 20-year cardiovascular administration career her ability to embody the five core qualities of leadership, creativity, involvement, knowledge and professionalism,” said ACCA Award Selection Committee Lynette M. Wheeler, MSN, RN, FAAMA, FACCA. “The Committee was not only impressed with Ms. Mazeroll’s accomplishments, but also her ability to influence others around her to strive for excellence, a feat not all administrators can accomplish.”

The ACCA GE Healthcare Award of Excellence recognizes a member or non-member who has demonstrated outstanding lifetime achievements in the cardiovascular field that have had a profound effect on the quality of patient care in the United States. The recipient is chosen by the ACCA Board and may be honored for a single major

contribution or a lifetime of achievement. The ACCA, with the support of GE Healthcare, has given this award to deserving recipients annually since 1993.

"Renee has contributed significantly to the improvement of cardiovascular care and the advancement of the cardiovascular administration," said Kevin Lundon, Vice President of Operations at St. Joseph Hospital. "She continuously demonstrates outstanding leadership and innovative solutions to providing Cardiovascular Services at the highest level to our community."
